"She would buy for instance, a bonnet because she thought it charming. The evening of the day she bought it she would find it hideous—take off the ribbons, and then the flowers—and change the arrangement with readiness and taste. Her bonnet would please her all the next day. But the day after there must be a radical reform—and so on, for some eight days until the unlucky bonnet, always in a state of metamorphosis, became totally indifferent to her. Then she would wear it with the utmost disdain, professing that she did not care what she put on—till the fancy should seize her to buy another new bonnet! Her black hair was still very fine. She got tired of being a brunette, and put on a blonde wig—yet by doing so she could not manage to disfigure herself. She took a fancy for herself as a blonde for a while—then she abused herself for being flaxen, and chose to be a bright chestnut.—Presently she returned to ashy pale locks—then went back to her own mellow black hair—and this to such purpose that I saw her with different hair for every day in the week. This childish frivolity did not exclude laborious occupations and very minute domestic cares.—She had her own delights of imagination, and would read the romances of M. d'Arlincourt with positive frenzy—far into the night—but that did not hinder her from being astir at six in the morning, to begin anew her toilette, her excursions, her needlework, her merriment, her despair, and her fits of passion."

Daily Tri-Weekly and Weekly

MILWAUKEE:

SATURDAY:::::::::::::::::::::::::JUNE 30.

Two Sides.—The *Wisconsin*, of last evening, has an article of a column and three quarters, from "An Old Fashioned Democrat," against the nomination of Barstow, asserting that he cannot be re-elected, that the sentiment of the State is Anti-Slavery, that the Democratic party is divided into two factions, and that a representative of neither faction can be elected. He therefore comes out for Dr. Stoddard Judd, of Dodge County, whom he characterizes as "one who has always stood for the right and maintained the principles of his party." How was it when in '48 he ran as the Free Soil candidate for Congress, in opposition to the Anti-Wilmot Proviso principles of his party? *Per contra* the *Wisconsin* publishes an article from the N. Y. *Herald* praising up Barstow as by far the strongest man in the Democratic party, and representing his chances for an election as about even. The *Wisconsin*, as usual, expresses no opinion on the subject.

THE *State Journal* will please observe that we assented cordially to the proposition of the Janesville *Gazette* for the addition of *Senatorial* delegates, and objected only to the reduction of the Assembly delegates from *two* to but *one* from each Assembly District. We have stated our objections to such a reduction, but we do not propose to dissolve the Union, or go in for "Barstow and the Balance," or eulogize the Fugitive Slave Act or perpetrate any kindred nonsense, whatever may be the decision of the Committee. What we have said has been dictated by a regard for the best interests of the party.

Proscription.

The German citizens of Jefferson, Jeff. Co., took offense at the Jeff. Co. *Jeffersonian*, because it published the particulars of a drunken row which took place at Gruber's tavern, in that village, on Sunday, the 10th inst., and held a mass meeting on the 17th inst., to express their indignation towards the editor of the *Jeffersonian*. The following are the proceedings of the meeting:

To the Editor of the Jeffersonian:

JEFFERSON, Wisconsin.

At a mass meeting of the German citizens of the village of Jefferson and surrounding country held at the house of H. Gottfried, on the 17th day of June, 1855, the following resolution was *unanimously* adopted:

Resolved, That the article in the *Jeffersonian* of the 14th inst., headed *disgraceful drunken row*, indirectly casts reflection upon *our cent* citizens, and that the advice therein given proves to our satisfaction the editor to be *not only an opponent to us, our liberties and most sacred rights, but also the tyrannical principles therein contained*, show the editor to be an unfit representative and the *Jeffersonian an unfit organ of the democratic party* in this village, and finally that we, as German citizens, do not believe that there is any necessity or call for Mayor Wood, or any other *fanatical* temperance man to interfere with or *dictate* in the management of our generally very orderly village.

ADOYS AMMAN, Pres't.
MARTIN MILLER, Sec'y.

The *Jeffersonian* replies to the above as follows:

"We are opposed to drunkenness in every particular, but especially on the Sabbath, which ought to be respected, and is so, we rejoice to say, by a very large majority of our American and German citizens, who, we are certain, would frown down such proceedings if they occurred on any day, much more so on the Sabbath, which even the most reckless hold in reverence, and if our German citizens imagine they can muzzle the *Jeffersonian*, or deter or intimidate us from discharging our duty as the publisher of a public newspaper, by sending us such expressions as the above, they mistake our character."

Pear Tree in Blossom.—We have a pear tree in our garden, which blossomed very fully this Spring, but the frosts destroyed all the settings but two, which are now growing finely. But the tendency of the tree to fruit is so strong, that about ten days ago it began to blossom again, and now some branches are setting with fruit, others are in blossom, and others are just budding. It is, to say the least, an unusual phenomenon.

Col. Benton.—Hon. THOMAS H. BENTON has been invited and is expected to deliver an address before the Association on the last day of the Illinois State Fair, which is to be held at Springfield, on the 25th, 26th, 27th and 28th days of September next.

☞ The population of Wheatland, Kenosha Co., is 1,375—males 632; females 733; foreigners 413.

The Oldest Paper in America.—The Newport (R. I.) Mercury closed its ninety-seventh year of publication on the 12th inst. It is said to be the oldest paper in the United States and one of the oldest in the world.

A recent letter from the Hon. Alexander H. Stevens, of Ga., indicates that he is inclined to throw the weight of his influence into the Democratic scale.

John Thompson is likely to make a handsome speculation out of the New York canal loan. He has sold $170,000 at an advance of two per cent., and announces that he shall ask a higher rate next month.

A well dressed man borrowed a shovel in Lafayette, Indiana, and in about two hours returned it, bearing a bag containing 1,200 Mexican dollars, which he said he had dug up near an old log house.

Escape and Recovery of Convicts.—Three convicts at the Penitentiary of Alton, Ill., who were at work in the quarry outside the walls, under guard, made their escape on Friday last. They were pursued and two of them captured near Jersey landing on Saturday, and taken back. The third was still at large, at the latest account.

The traveling editor of the Madison *Patriot* is alarmed at the growing popularity of negroes and at the disposition to prefer *liberty* to *life*. It is lamentable, very!

We learn from the City Clerk, who has completed the census of the city that our population on the first of the present month, was about 3,900. In 1850 it was about 3,455.—*Kenosha Telegraph.*

A Centenarian Traveling Four Hundred Miles.—*Father Sawyer at the Home of his Childhood*—This reverend gentleman is in his hundredth year, having been born on the 9th Oct. 1755. At the solicitation of friends, he was invited by Ex-Governor Peters, who is now eighty-two years old himself, to visit his native town of Hebron, Conn. On Friday of last week, he arrived at Hebron. On the evening of his arrival, being asked if he was fatigued, after a journey of some four hundred miles from Maine, he said, "As for being fatigued, if occasion required it, I feel that I could stand up and talk to the people for three-quarters of an hour."

He left Hebron when twelve years of age, and only two persons remain of those who inhabited the town when he left it. Last Sunday, before going into the pulpit in the morning, he baptised four children. He preached all day, and preached well. His text was, "Is it well with thee?" Said he, "It is now ninety-nine years since my good father and mother brought me to the meeting-house upon this green to give me up to God, in the ordinance of baptism.

I have come back after almost a hundred years, to administer the same ordinance to some of the children of the same church, and to inquire, "Is it well with you?" Father Sawyers extreme age has put nothing out of joint. He feels and acts in perfect harmony with the present generation. A holy influence surrounds him and goes with him wherever he goes.

Death by Lightning.—During the storm of last Friday night, a most shocking occurrence took place six miles east of Red Wing, at the house of a widow lady by the name of Wright. The family consisted of some seven or eigth persons, part of whom slept in the second story, and part on the ground floor. The lightning struck the house, killing two members of the family, and what was most singular, it proved fatal to one that was sleeping in the upper story, and one on the lower floor, and these persons had each a companion in bed with them at the time, both of whom were unharmed. The oldest daughter, a young lady, and a boy some seven or eight years of age were killed. The family were strangers, having but lately arrived in the Territory.—*Minnesota Pioneer, June 26.*

Killed by Lightning.—We are informed by Mr John Bennett, of Kingston, Marquette County Wis., that on Saturday evening, 16th inst., during a heavy thunder storm at that place, the house of a German named Kouse, was struck by lightning, the fluid coming in at the roof, passing down the ceiling until just over the window beneath which Mr. K. was sitting with a daughter some twelve or fourteen years of age it seemed to separate and came down both sides of the window, killing him instantly, and stunning the girl, though not so much but she recovered. No further damage was done.—*Beaver Dam Rep 27th inst.*

One of the Storms.—Early this morning our village was visited by a rain storm, accompanied by a brilliant display of glaring lightning and rattling thunder. The flood was great, filling cellars and everything of the kind, and doing considerable damage to goods, streets, &c.—Our principle street is now in good order to fish in.—*Beaver Dam Rep 27th inst.*

The Weather and Crops.—During the last week, considerable rain has fallen, and the farmers, who a short time since were complaining of the dry weather, begin now to change their tune. We hear from all quarters that every thing looks well, with the exception of corn has suffered somewhat from the drought which and worm, and on low lands, from the heavy rains of the last two weeks. We have been diligent in our inquiries, on this subject, of farmers in various portions of our County, and from information thus obtained and personal observation, we believe that the harvest this fall, in this section of our State will be more than an average one.—*Fond du Lac Union.*

A Commendable Project.—It is proposed to try the experiment of supplying the lakes and streams in this vicinity with several desirable varieties of fish, such as the speckled trout, Mackinaw trout and salmon. The water is cold and pure and we can see no reason to prevent their successful introduction and propagation. Almost every other variety of fresh water fish are found in them already, and with a little exertion these may be supplied. Gov. Farwell, we are glad to learn, has interested himself in the undertaking, and several gentlemen from Cincinnati, Chicago and St. Louis who, thinking of locating here, have subscribed towards it. It will be necessary to raise about a thousand dollars for the purpose.—*Madison Jour.*

The Regatta.—We learn from Mr. Mayers that the arrangements for the Regatta on the Fourth are progressing finely. A number of new boats are building, and old ones being fitted up. It is hoped that the people of Milwaukee will take sufficient interest in it to enter the lists and compete for some of the prizes. Quite a number of people from Milwaukee and Chicago are expected here to witness the sport, and a very pleasant time is anticipated.—*Madison Jour.*

The Currant Fly.—We can give no other name than the "Currant Fly" to an insect which is just now overrunning and destroying the currants in this vicinity. We saw in Mr. Goodell's garden, the other day, dozen of fine bushes as completely stripped as in the middle of winter. The bug or fly eats off the leaves; and the currants, left without the shade and nourishment of the leaf, drop to the ground. After taking the leaves clean from one bush, they march to next, and so on through the garden.—*Green Bay Adv., 28th inst.*

☞ The *Louisiana*, from Collingwood, brought in Friday last, *eighty seven* Belgian emigrants, who are making their homes in this vicinity, generally near Bay Settlement.

A party of about forty emigrants who, we understand, belonged with those who came by the Collingwood route, but separated from them at Buffalo and came by way of Chicago, reached here on Sunday morning.—*Green Bay Adv., 28th inst.*

Determination.—"The longer I live," says Sir T. F. Buxton, "the more I am certain that the great difference between men—between the feeble and the powerful, the great and the insignificant—is energy, invincible determination, a purpose once fixed on, and then death or victory. That quality will do any thing that can be done in the world; and no talents, no circumstances, no opportunities, will make a two legged creature a man without it."

Disturbance Amongst the Prostitutes on Blackwell's Island.—On Sunday last a serious outbreak occurred on Blackwell's Island among the dissolute women recently sent from the City, who are now confined in the Workhouse. It appears that the women have complained that the bread has been mouldy, and the meat tainted and utterly unfit to be eaten. Finding that no heed was taken of their complaint they resolved to rebel. Last Sunday they not only refused to eat, but commenced upsetting the tables and smashing the crockery; the keepers and matrons interfered, when a general fight commenced, and for a time the place was a scene of the wildest confusion. Heads were broken, clothes torn, hair pulled, and a free fight indulged in generally. At length a strong force of keepers having arrived, the cyprians were overpowered by the force of superior numbers. The leaders were taken and confined in cells, and the rest in some way pacified.—*N. Y. Trib. 26th inst.*

We have had plenty of rain, in this section of country for the past few weeks, which makes the crops look well.—*Baraboo Standard 27th ult.*

Origin of Lynch Law.

From the old diary of the distinguished Andrew Ellicott, his grandson, J. C. G. Kennedy, Esq., of this city, has copied for the subjoined extracts, giving an account of Capt. Lynch, of Virginia, who appears to have been the man who introduced and gave a name to that "wild justice" which is known in our country as "*Lynch Law*:"

"Capt. Lynch, just mentioned, was the author of the lynch laws so well known and so frequently carried into effect some years ago in the United States, in violation of every principle of Justice and jurisprudence. Mr Lynch resided in Pittsylvania, in the State of Virginia, when he commenced legislator and carried his system into effect. The detail I had from himself, and is nearly as follows:

"The Lynch men associated for the purpose of punishing crimes in a summary way, without the tedious and technical forms of our courts of justice. Upon complaint being made to any member of the association of a crime being committed within the vicinity of their jurisdiction, the person complained of was immediately pursued and taken, if possible. If apprehended, he was carried before some member of the association and examined: if his answers were not satisfactory, he was whipped till they were so.

Those extorted answers generally involved others in the supposed crime, who in their turn were punished in like manner. These punishments were sometimes severe, and not frequently inflicted upon the innocent through spite, or in consequence of answers extorted under the smarting of the whip to interrogatories put by the members of the association. Mr. Lynch, informed me that he had never in any case given a vote for the punishment of death: some, however, he acknowledged, had been actually hanged, though not in the common way; a horse, in part, became the executioner. The manner was this, the person who it was supposed ought to suffer death was placed on a horse, with his hands tied behind him and a rope about his neck, which was fastened to the limb of a tree over his head. In this situation the person was left, and when the horse, in pursuit of food or any other cause, moved from his position, the unfortunate person was left suspended by the neck. This was called aiding the civil authority. It seems almost incredible that such proceedings should be had in a civilized country, governed by unknown laws; it may nevertheless be relied on. I should not have asserted it is a fact, had it not been related to me by Mr. Lynch himself and neighbor Mr. Lay, one of the original association together with several other Lynch men as they are called. This self-created tribunal was first organized in the State of Virginia about the year 1776, from whence it extended southward, as before observed.

The Crops in this Country.—The country is moist with the recent rains, and all vegetation is springing forward with a most vigorous life. The grass crop, which was expected to be very scant, is now under the quickening rains of the past two weeks, thrifty and very stout. The winter wheat looks well.—*Menasha Adv. 28th inst.*

Fire at Manitowoc.—We learn by the Manitowoc mail carrier, that a severe conflagration took place in Manitowoc on Sunday morning last. The fire originated in the Brewery, which was consumed, together with two other buildings.—*Menasha Adv. 28th inst.*

Adams Co.—A Correspondent of the Baraboo *Standard* writing from Mauston under the date of June 14th, says:

The Lemonweir river is so low, that the logs cannot be got out, and there is every probability of a *great* scarcity of lumber, during the building season.

Crops look, on the whole, favorable for farmers. A few showers have occasionally fallen, and it is now considered that the spring crops are sure, and out of all danger.

Labor is in much demand here, from the vicinity of the lumber district, a working man has great advantages. Mechanics of all all description, are in great demand here, as well as hired girls.

The Milwaukee Sentinel and some other papers, think that in the Republican State Convention Senate districts should be represented as well as Assembly. We can see no reason for it. In Law making there may be a reason for Senate districts, but in a single body like this, where the whole people are once represented in Assembly districts we see no reason for representing them over again by Senate districts. Why not have Congressional districts represented also. We think with the Sentinel that two delegates from each assembly districts would make too large a convention. One delegate from each assembly districts would represent the whole State and make a convenient body. What is the use of more? Our voice is for one delegate from each assembly district and for the 5th of September as the earliest period for holding the Convention. Now gentlemen Committee go ahead and suit yourselves in the matter.—*Kenosha Telegraph.*

The first locomotive manufactured in this city, drew an excursion train from Buffalo to Attica, yesterday afternoon, in fifty-five minutes—a distance of 31 miles. Returning, the train ran from Attica to Alden, a distance of eleven miles in fifteen minutes.—*Buffalo Express, 27th ult.*

ONE of the most extensive and flourishing Mercantile Houses in the West, is that of Messrs Rogers & Dinnin, at 173, East Water Street Milwaukee. Mr. Rogers has long been favorably known to dealers in this section; and has had many years experience in manufacturing clothing in eastern cities, the House can now be relied on as offering better inducements to country dealers, than to go to New York for supplies.—*Portage City Ind.*

CITY LAND OFFICE.

A GREAT grain bargain can be had as follows: N W ¼ Sec 25, Town 10, Range 21, containing 163 acres more or less. The property is valuable, being about 20 miles from Milwaukee, a first rate mill privilege near the city of Grafton. Terms, one half cash, balance 1 and 2 years. This property belongs to an acquaintance of mine in Virginia, who wishes to dispose of it, and will give a great bargain. CALEB WALL, Agent.

CITY LAND OFFICE—June 23.

THE great land sale which took place this day, exceeded the expectation of all. The sale commenced at 10 o'clock, A. M. and continued after an adjournment until 5 P. M; a large portion of the property was not offered, the owners preferring to pay all expenses and withdraw the same. The property that was sold principally was in the Second Ward, and the said property would sell to-day for fifty per cent more. This great sale is adjourned until the 27th day of July next, at which time a new arrangement will be entered into. Notice will be given of the property to be sold each day, so that there will be no conflicting of the different Wards hereafter. I expect to be absent some twenty days shooting Squirrels and hunting Bucks, but all arrangements will be made so that all who have any business with my establishment can have it attended to as if I were at home. I find it necessary for my general health and for the general good of our city, to leave for the country a few weeks. I expect, when I return, to have several from the south who will be ready to invest large amounts of property in our city, and also in the county. All who have property to sell send it in time, so that it can be entered in next Catalogue. The Catalogue will be made up by the 20th of July, at which time I will be home.

The way to Advertise Cheap.

☞ A gentleman, residing at New Lisbon, Adams Co., sends us the following description of New Lisbon and vicinity, stating that its publication will much oblige the citizens of that place. We presume the gentleman owns a *small* amount of real estate in and about New Lisbon, which he is desirous of advertising as cheap as possible:

TOWN OF NEW LISBON.

WE WOULD CALL THE ATTENTION of Farmers from the East, desirous of purchasing FARM LANDS AT GOVERNMENT PRICES, as well as partially improved farms, to the vicinity of NEW LISBON, on the Lemonweir river, which is likely, in case of a division of Adams Co., to be the County Seat, being the geographical centre.

The village although small, is rapidly growing, and is without doubt one of the handsomest sites for a village on the whole river. The country around is quite level, and as a distinguishing feature, is on an elevated surface, where good and dry cellars may be had, as there are no marshes near the village.

The principal proprietors of the village are selling lots from $10 to $50 each; thereby holding out great inducements to mechanics and others in moderate circumstances, to purchase a house here. Lumber can be had at their mill, from $12 to $15 per m.

The village can boast of as good water privileges as any in the State. In addition to what they have already, we learn that one more saw mill and grist mill, together with two stores, are now being built, and others are in contemplation. Those desirous of visiting this section of the country will find a tri-weekly stage running from the Veeder House, Portage City, direct to NEW LISBON. je30daw1t

When the writer of the above advertisement sells some of his real estate, we hope he will remember his promise to subscribe for the *Free Democrat*.

Police Court.—MIRANDA SMITH was brought up this forenoon to be tried for assault and battery on NANCY FILKINS, but the case was continued till July 5th.

ALBERT DAVIS, was brought down from Jail to be tried for burglary, in breaking into the house of LEWIS ORR, but the case was continued till the 7th of July, at the instance of District Attorney, for the want of material witnesses.

In the case JOHN E. JOHNSON and CHAS. HENDERSON, charged with stealing 2 watches, the District Attorney entered a *nol pros* as to JOHNSON, and HENDERSON plead guilty, and was sentenced to 30 days imprisonment.

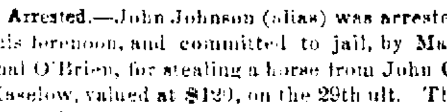

Arrested.—John Johnson (alias) was arrested this forenoon, and committed to jail, by Marshal O'Brien, for stealing a horse from John C. Kaselow, valued at $120, on the 29th ult. The accused will be examined this afternoon before the Police court.

Recovered.—The body of the Chestnut street Bridge Tender, who was drowned in the river, a few days since, was found in the harbor at the straight cut, this morning.

Found.—One of the legs of the murdered man, found in the river some time since, was found yesterday morning, just below Helfenstein's Warehouse, and the other, last evening, in the river, in the rear of Engine House No 6. The limbs were both sent to the Poor House, this morning.

The dead body of a man was found in the river, one day last week about six miles below this place.—*La Crosse Rep, 27th inst.*

For a short time Only!

SPECTACLES, &c. ground on the exact principle of spherical accuracy, by G. SOLOMONS the celebrated Optician, from the Improved Spectacle Manufactory and London Optical Establishment, No. 105 Old Bond Street, London, established more than a century ago.

G. Solomons, the sole inventor of the improved Spectacles and various Improved Glasses, is now on a professional visit to this place, and may be consulted at his office

EMPIRE BLOCK, NO. 221 1-2,

Nearly opposite the Walker House, East Water Street, Milwaukee.

He has had the honor of attending the principal towns in the United Kingdom, where he has experienced the most flattering encouragement—and having been earnestly solicited to make a visit for a short time, he has the honor of announcing his arrival from London, with a most splendid assortment of his newly invented and improved spectacles. Such is the superiority of these Glasses, that persons laboring under weak eyes, may instantly be relieved by using them, and they possess the property of preserving the precious organ of sight to the most advanced period of life, while they enable both the old and the young to pursue the most minute employment, for any length of time, either by day or candlelight. As several individuals in the United States have proved their efficacy, he with confidence solicits the further favors of the public which he will ever be proud to acknowledge, assuring those who entrust him with their commands, that no exertion shall be wanting on his part to merit their confidence and approbation. Added to the advantages possessed by him of long practice to the Eye Infirmaries, and under one of the most eminent Oculists, by which he has obtained a thorough knowledge of the diseases of vision, he has in his possession, documents from individuals of rank, conveying the highest testimonials of approbation.

He will give reference to persons in the United States who have found the greatest benefit and comfort from the use of his newly invented and improved Spectacles.

New Discovery for Deafness.

The Sound Concentrator is an extraordinary powerful newly invented small instrument, for the cure of extreme cases of deafness, entirely different in make or construction from all others, surpassing everything of the kind that has been or ever can be produced. They are modelled to the cavity of the ear, and may rest within without projecting, and being of the same color of the skin are not perceptible. The powers of this valuable invention are so great as to restore defective hearing of long standing to its perfect and natural state; and to enable deaf persons to join in general conversation, to hear most distinctly at a place of worship, at the bar or any public assembly; the unpleasant sensation of singing noises in the ear is entirely removed, and the concentrations afforded to individuals afflicted with this dreadful malady, all the assistance that can possibly be desired.

Chicago, Ill., Dec. 21, 1852.

I have examined Mr. G Solomon's Glasses, and believe them to be constructed upon correct principles, and well suited for all such as have occasion to use them.

J M Lean, M D, Mat Med, &c
Rush Medical College,
Chicago, Ill, Dec 21, 1852

I hereby certify that I am now wearing a pair of Mr Solomon's Glasses, and find them to answer a better purpose for near-sightedness than any that I have ever used.

J W Eldredge, M D
Cleveland, Oct 27, 1852

It affords me pleasure to state that on trial of several specimens of Spectacles, placed in my hands by Mr Solomon, I find myself much relieved from a defect of vision and especially weakness of the eyes, from which I have suffered for the past two years, whenever I have exercised them, even for a short period of time. I think they are of an excellent quality, and peculiarly adapted for such purposes.

J P Kirtland, M D
Professor of Physical Diagnosis, and Theory and Practice of Medicine, Medical Dep W R College
Rochester, January 15, '51

The best recommendation that I can give the Glasses of Mr Solomons, is that I use them myself and prefer them.

James Webster, M D
Professor of Anatomy, University of Buffalo,
New York, June 4, 1850

Having made a trial of Mr Solomon's Patent Spectacles, and examined the principle on which they are constructed I have no hesitation in pronouncing them superior to any with whom I am acquainted, and accordingly can most cheerfully recommend them to all who need artificial aid in improving their vision.

Charles A Lee, M D
Professor of Pathology and Materia Medica, Geneva, Buffalo and Bowdoin College
Philadelphia, June 4, 1850

I cordially concur, as far as my judgment goes, in the opinion of my friend and colleague, Dr Lee, in reference to the perfection of Mr Solomons' convex and oval glasses, for far-sightedness. The grinding appears to be good and clear, and the general workmanship superior.

James Bryan, M D

AYER'S PILLS,

A NEW and singularly successful remedy for the cure of all Bilious diseases — Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back, and Limbs, Female Complaints, &c. &c. Indeed, very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails; besides it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing any thing hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth.

Among the many eminent gentlemen who have testified in favor of these Pills, we may mention:

DR. A. A. HAYES, Analytical Chemist, of Boston, and State Assayer of Massachusetts, whose high professional character is endorsed by the

HON. EDWARD EVERETT, Senator of the U. S.

ROBERT C. WINTHROP, Ex-Speaker of the House of Representatives.

ABBOTT LAWRENCE, Minister Plen. to England.

† JOHN B. FITZPATRICK, Cath. Bishop of Boston.

Also, DR. J. R. CHILTON, Practical Chemist, of New York City, endorsed by

HON. W. L. MARCY, Secretary of State.

WM. B. ASTOR, the richest man in America.

S. LELAND & CO., Propr's of the Metropolitan Hotel, and others.

Did space permit, we could give many hundred certificates, from all parts where the Pills have been used, but evidence even more convincing than the experience of eminent public men is found in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effects should prove as they have proved more purely remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate Formulae by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If, however, there should be any one who has not received them, they will be promptly forwarded by mail to his address.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Being sugar wrapped they are pleasant to take, and being purely vegetable no harm can arise from their use in any quantity.

For minute directions, see wrapper on the Box.
